November 29, 2010

Dear Fellow SVAA Member,

Thank you for your support in the past year and we ask you to join our association once again. We are pleased to advise that there is no increase in dues for the coming year. In addition, if your club purchases liability insurance through our association there is no increase in premium. Also, insurance for directors and officers is included when you purchase the club liability insurance.

Our website [www.svalberta.com](http://www.svalberta.com) is improved with more information for your club members and it is constantly improved base on your input. Our newsletter is now produced on a regular schedule and is contributing income from our advertisers.

This past year has seen no change in government regulations affecting our hobby. We are, however, seeing some government interest in vehicle noise level, bumper heights and vehicle structural modifications. We will continue to monitor these and other issues that may arise and offer our input.

I would like to thank the clubs that do vehicle inspections and encourage all members to consider this as a club activity. If you require assistance with getting this underway please contact me or an SVAA Director. A check list is available on our website or can be mailed to you.

With the intent of trying to understand our members' requirements and what is expected of us as an organization, we are putting together a survey for all members. We will have this ready for distribution shortly.

We are planning to hire a part-time administrative assistant to help with the newsletter, website and club communication in general. This would be a work-at-home position with flexible hours. If anyone is interested or knows of anyone who may be interested in such a position please contact me or one of the other directors.

Thanks again for your past support and I hope to see you at our meeting in Lethbridge at the Early Bird Swap meet on Feb. 12, 2011

Happy Motoring,

*Harry*
