STEP 9. Upon successful completion, you will be taken back to the Mail screen. Your account will now be listed. For this example, note Joe Blow's Email is listed under Accounts.

TROUBLESHOOTING

If this process does not work go back into mail account, under settings and check the following:

Click on ACCOUNT, go to Outgoing Mail Server, click onto SMTP and ensure primary mail server is: mail.wundersolutions.com and is on

Click on Account and at the bottom of the page click onto advanced.

Slide the screen down so you see the bottom of the screen.

Make sure SSL is on, and server port is 993.

Click on Authentication and ensure Password is checked off.

At the top of page click on advanced takes you to previous page. At the top of the next page click on Account, takes you to previous page.

Click done and you should be up and running.
