## CHANGING USER FORWARDS

Click on CHANGE YOUR FORWARD ... fill out information - Click Edit Alias

The image shows a form titled "Edit an alias for your domain. One entry per line." The form contains the following elements:

- A header bar with the text "Edit an alias for your domain. One entry per line."
- A label "Alias:" followed by the text "joeblow@yourdomain.com".
- A large text input field labeled "To:".
- Two radio button options:
  - Deliver to the local mailbox.
  - Forward to given email addresses only.
- Two buttons at the bottom: "Edit Alias" and "Exit".

### NOTES

A copy stays in your mailbox

The email only goes to the forwarding address
